COMPANY OVERVIEW

KEEE is a small consulting firm founded in 1999 by Dr. Kapur. We provide energy and strategic sustainability services, and economic, policy, and regulatory support for our clients.

CORE COMPETENCIES

We are focused on providing high-quality, detailed energy and environment studies, economic analyses, and strategies. We offer research, studies, reports, engagement, and training related to our capabilities.

We have expertise in:

- Energy and water savings and audits
- Renewable energy
- Strategic Sustainability Planning & Implementation
- Distributed Energy Resource (DER) Analysis
- Demand Response Programs
- Life Cycle Cost Analyses (LCCAs)
- Energy usage tracking & reporting
- Measurement & verification (M&V) of energy savings
- Utility bill auditing
- Energy forecasting, planning, pricing, and procurement
- Economic/Financial Feasibility & Impact Studies

DIFFERENTIATORS

We are uniquely qualified to provide the above high-value services quickly and at a low price for the following reasons:

- Our experience with international, federal, state, and local agencies gives us a unique perspective
- We provide both off-site and direct on-site professional support
- Our Team includes economists, engineers, scientists, sustainability professionals, modelers, and energy and policy experts
- The research ecosystem in our firm leads to ready-to-go solutions and offerings
- We are problem solvers with a human element
