

## COMPANY OVERVIEW

KEEE is a small consulting firm founded in 1999 by Dr. Kapur that provides sustainability/climate services and economic, policy, and regulatory support for our clients.

## CORE COMPETENCIES

We are focused on providing high quality, detailed energy, environment, economic, policy, and regulatory analyses and strategies. We offer studies, reports, & training related to our capabilities.

We have expertise in:

- Sustainability/Climate Planning & Implementation
- Energy & water conservation, renewable options
- Life-Cycle Cost Analyses (LCCAs)
- Energy and GHG Emissions Savings
- Leadership Briefings & Outreach Support
- Literature searches and Peer Reviews
- Data Analysis and Modeling
- Sensitivity/Risk Analyses
- Conducting Research & Developing Reports
- Regulatory & Docket Support
- Public Comment Support

## DIFFERENTIATORS

We are uniquely qualified to provide energy, environment, economic & regulatory services for the following reasons:

- Our experience with international, federal, state and local agencies gives us a unique perspective
- We provide both off-site and direct on-site professional support in multiple locations
- Our Team includes economists, engineers, scientists, certified sustainability professionals and policy experts
- We can perform large and complex analyses in a relatively short turnaround timeframe
- We are problem solvers with a human element

## PAST PERFORMANCE
